DESCRIPTION

Control your desktop or notebook even better then before. Use the EM3186 Blue LED Mouse Slim on virtually every surface.

Slim design with rubber coating
The rubber coating gives you a good grip on your mouse. Besides this, the mouse has a very slim design, it's just 24mm high! This enables you to carry the mouse with you while traveling with your laptop bag.

Blue LED technology
Enjoy better movement and excellent performance with Blue LED technology. The blue LED inside the mouse has greater illumination and is less sensitive to dust. This enables you to use the mouse on virtually any surface.

Special whirl cable
Having troubles with the USB cable of a mouse? Not anymore, thanks to the special whirl cable fitted to the mouse. This is an ideal solution to avoid knotted cables. The cable is softer compared to standard cables, making it easy to bend yet solid to handle.

Fitted with USB interface
The EM3186 Blue LED Mouse Slim Wired is fitted with an USB interface. This enables you to connect the mouse to virtually any computer, with common operating systems like Windows, Macintosh, and Linux.
